## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

<b>6</b>	Question 6: see the grids below.	<b>(20)</b>

Best fit grid

No word count penalty or credit per se

Register is disregarded

Bullet points may be treated in any order

Mark globally – free responses, not reading comprehension

If offered salutations and valedictions are not considered detrimentally

Incorrect timeframe limits the bullet to partial. NB timeframe NOT tense

No development needed where a detail is sought for full bullet e.g. one

interesting past event needs no embellishment for full credit

In the third bullet of each task, at least **two** details are needed. In Q6b and

Q6c disadvantages cannot score
