

Dr Sadie Jones
Astronomy Research Scientist
University of Southampton

Black Holes: Research and what we currently know

Dr. Jones completed her PhD in 2011 at the University of Southampton on the radio emission from supermassive black holes. Dr. Jones has also research experience of the 13 Hr. field, galactic formation and deep field imaging. She leads the Southampton University Physics outreach program and is a keen supporter of all things Physics and Astronomy related. Black holes are one of the most famous but misunderstood concepts in modern physics and she will shed light on their formation and development.
