

**Dr John Chaddock
VP Head of Neuroscience, Ipsen**

'Transforming Toxins into Therapeutics'

In addition to a BSc(Hons) and PhD in Biochemistry John has management qualifications and has been an elected Fellow of the Royal Society of Biology. John will outline his career path to date in the field of Biochemistry working in academia, CAMR (later HPA), Syntaxin and now Ipsen'. His talk will also focus on the science around protein engineering, the importance of understanding protein structure and its impact on function, and the development of new biologics based on toxins that exist in nature.

Thursday 10th October 2019

**4-5pm in Science at Bishop Wordsworth's
School**
